

JUNE TOWN MEETING

SPECIAL TOWN MEETING FOR JUNE 22nd

The Board of Selectmen have called for a Special Town Meeting for June 22nd, for the purpose of acquiring land, and authorizing the Permanent Building Committee to start construction of a new school, off Foutwell Street.

The call was issued Monday evening.

Members of the Permanent Building Committee conferred with the Selectmen, and told them that they had a site of about 10 acres chosen.

The total cost of the building, land, etc., according to Joseph Courtney, a member of the Permanent Building Committee, would be under \$400,000.

103 TO GRADUATE NEXT THURSDAY

103 pupils of the Class of 1959, Wilmington High School, will receive their diplomas next Thursday, at 8 pm., in the Herbert C. Farrows Auditorium.

Grammar School graduation will be one week later, on June 11th.

The schools will close for summer vacation on June 19th.

TOWN HALL GOES ON SUMMER HOURS JUNE 1st

The Wilmington Town Hall, including the Welfare Department will adopt a summer schedule on June 1st.

The Town Hall will be open from 8 am to 4 pm, and on the second and fourth Mondays of the month will be open from 7 pm to 9 pm.

LADY OF FATIMA VISIT

The famed Pilgrim Statue of our Lady of Fatima will be welcomed to Wilmington, by communicants of St. Thomas Church and their guests, Friday evening.

A Candlelight Procession is to leave Villanova Hall at 7:45 pm, in a colorful and prayerful exhibit of the devotion to Our Lady. The Procession is to go to the Outdoor Shrine of St. Thomas, where it will be welcomed by Edmund Vigeant, in the name of St. Thomas parish.

Father Edmund Croke, Pastor of St. Thomas will intone the prayer "Our Departed Sons" at the Shrine, and the Requiem will be sung by St. Thomas' Senior Choir, after which Taps will be sounded.

Our Lady will be enthroned in St. Thomas Church, where prayers will be said for our families, our town, our country, and everlasting peace.

The Precious Crown, that has accompanied Our Lady on Her travels through the 48 states will be placed on her head by Father Croke.

Monsignor William McGrath, ex-Chinese Missionary and prisoner of war, appointed by

TOWER CRASH INJURES ONE

John Johanson, of Burlington, a driver for the Benevento Sand and Gravel Company lost his front teeth, as the result of a collapse of a 'cement tower' in Wilmington yesterday.

The tower, used for unloading bulk cement, was located near Middlesex Avenue, on the Wildcat Railroad.

The body of the truck Johanson was driving was completely flattened when the tower, which may possibly weigh 25 tons, suddenly collapsed, Johanson, in the cab, was thrown against the wheel.

Electric wires, broken by the collapse, hindered police operations in the rescue of Johanson.

SALES TAX TO BE DISCUSSED AT BALDWIN CLUB

An open meeting, in which the proposed sales tax is to be discussed, will be held by the Baldwin Civic Association Inc. in the Chestnut Street clubhouse, on June 2nd.

A representative of Governor Furcolo will discuss the tax from the viewpoint of the Governor. It is hoped that there will be an opposition speaker.

FATHER REGAN IN TEXAS

Father John Regan, formerly Curate of St. Thomas, has reported to the Chaplain's School, at the Lockland Air Force Base, Texas. His Post Office Address is Pox 1544, Lockland AFB, Texas.

He will be stationed at the school for about two months.

POLICE AUXILIARY MEETS MONDAY

The Police Auxiliary of the Wilmington Civil Defense is to meet next Monday, at 7:30 pm in the basement of the Town Hall.

FLOWERS ON THE COMMON

While the ladies watch, men from the Park Department finish planting geraniums donated by the Wilmington Women's Club, for Wilmington Common. It is the first floral decoration for the Common in at least forty years. S6

ON THE WAUGHPATH

RICKY FROTTEN PITCHES A NO HITTER

Pony League No-Hitter

Ricky Frotten mixed a blazing fast ball with a baffling curve ball to perfection last Tuesday night when he shut out the Stoneham Falcons for the Wilmington Pony League team in a no-hit, no-run, 4-0 game. Eighteen Stoneham batters went down via the strikeout route as the Wilmington Wildcats won their second game in two starts.

In Sunday's opening game, the locals topped the Stoneham Hawks, 12-2. Eddie Casey led the attack with three base hits while Joe Peaton drove in three runs with a bases-loaded double. The Wildcats got off to a shaky start by giving up two runs in the first inning, but they picked up three in the first and five in the second of their own to take a commanding 8-2 lead early in the game. Ricky's pitching got stronger as the game moved along, and he notched fourteen strikeouts en route to this first victory.

Two on Injured List

The Wildcats have been without the services of two of their veteran ball-players. Jim Melzar picked up about fifteen stitches while playing for the high school team last Friday when he was run over at second base and Ronnie Outridge came down with the measles just before the season opened. When the ball club gets these two stalwarts back into uniform, watch out!!

Getting back to Tuesday's game, Wilmington picked up its

first run in the first inning when Jeff Williamson walked with the bases loaded. Three more runs in the second frame closed the scoring for the night. John Cayanaugh's hit and a walk to Tom Grant put runners on first and second with one out and brought in a new Stoneham pitcher. Jerry Paglia, Ricky Frotten, and Ed Casey lined consecutive base hits to the outfield to score three runs before McCarthy, the Stoneham pitcher, settled down to pitch no-hit, no-run ball the rest of the way.

Fans Invited

This ball club looks like a championship outfit. We don't say that to jinx the boys; we would just like to encourage people to come out to see them play. The next two home games are scheduled for Tuesday night at 6:00 P.M. and Saturday, June 6, at 2:00 P.M.

Booster Banquet

The Wilmington High School Boosters Association has lined up a triple threat head table for its annual banquet Saturday evening, June 6th. Frank Varrichione, former Notre Dame and current National Football League star; Neil Worden, also an ex-Notre Dame great and the newly-appointed coach of the B.C. High football team; and former National League umpire Artie Gore will headline the evening's program as announced by Boosters President Bob Hastings.

The public has been invited to attend the banquet which is scheduled for the high school gymnasium at 6:30 P.M. on June 6th. Tickets may still be purchased - but only until May 30th - from Bob Hastings, Mrs. Fairfield, or George Dyas.

Still Collecting Laurels

Even though the ice has long since melted, Jeanne Ashworth keeps piling up the awards. Last weekend, Jeanne competed in a bicycle racing meet held in New Jersey and captured a second place for her efforts. This might seem pretty routine except for one fact -- she has only been interested in the sport for about a month. Wait till next year!!!

Red Sox Drop First

The Cain Red Sox suffered their first loss of the season in last Thursday's Little League action as the Chisholm

Indians' Paul Currier stopped them, 5-4. The Indians took advantage of bases on balls early in the game and staved off late Red Sox rallies to grab the victory. It looks as though Ed Sullivan's Scalpers, minus the efforts of their '58 catcher, Jimmy Newhouse, will play the role of spoilers this year in the local League.

New League Leaders

This Red Sox loss, coupled with the AVOO Yankees win over the Unit Packet Tigers the day before, vaulted the AVOO club into the league leadership. Mike Anderson pitched the win and socked a tremendous three-run homer over the centerfield

LOVE AND RESPECT

It is difficult to describe the position
that Dudley Buck held in Wilmington. Words are
inadequate.

When Dudley ran for School Committee, back
in 1956 this paper knew of his worth. His op-
ponent was a very nice fellow, who we also knew
and appreciated. We wanted to be fair - we said
nothing that would help or hurt either candi-
date.

But we wanted to shout, at the top of our
lungs - Here is the Man of the age - here is a
man who, above all others, is eminently suited
to help guide the education of our youngsters.

As things turned out Dudley needed no help.
A few weeks of campaigning was all that was ne-
cessary. His magnetic personality, his charm,
his obvious interest in children and his already
exalted position in the world of science
swept Dudley into the School Committee.

We suspected at the time that each of the
voters felt as we had felt - that he had "dis-
covered" Dudley Buck.

But it is still difficult to tell properly
the story of this man. Since 1956 the people of
Wilmington have known this man more and more -
the children in school, to whom he would lec-
ture - taking time from his busy schedule, the
parents who realized his ambitions for our
children - they loved and respected Dudley for
the man he was.

We have searched for a simile, but found
none. One suggestion given us was that the peo-
ple of this town loved and respected Dr. and
Mrs. Buck as the Royal family are loved and
respected in Britain.

Perhaps that can serve as a description, but
it is still inadequate.

ESTHER NICHOLS

Another of our beloved personalities is
to retire from the scene.

The Wilmington Teachers Association, yester-
day afternoon gave a tea, in honor of Mrs. Guy
Nichols, RN.

After 40 years of duty as the School Nurse
of Wilmington Mrs. Nichols is retiring. The
story of her service to the children of Wil-
mington is known to all. Yet the whole story is
not known, nor will it ever be.

For it was Esther Nichols who knew intimate-
ly the details of the unfortunate people of
Wilmington, and who, with this knowledge, deep
within her bosom, acted in ways unknown to any
one else to alleviate misfortune.

Many private citizens of Wilmington have
suddenly discovered that they were face to face
with an Angel of Goodness, who, with her pleas-
ant voice and smile was able to extract a much
needed emergency charity gift. No one, other
than that particular angel knows how many times
this has happened, in forty years.

Our social agencies, our schools, and our
poor can testify to her work. Our people real-
ize it - and yet they do not.

She will be very difficult to replace.

A MOST FOOLISH MOVE

For fifty years, in the Town of Winchester,
there was a grade crossing of the Boston &
Maine, across Route 38 (Main Street). It
created havoc in Winchester, both with the
people of the town, and the motorists who were
casually driving through.

Finally, at a cost of about \$6 millions, an

SUSIE'S

SONNETS

BREVIS VITA

Let's sound the bugle, muffle drums,

As once again the sad day comes.

We'll reverently keep these hours,

Remembering lives as brief as flowers.

TOWN NOTES

Swimming

We have received a note from
the Board of Health, asking
that children be prohibited
from swimming in the 'lakes'
at the Hathaway Pit, in North
Wilmington.

Parents are advised that the
Board of Health cannot make
a bacterial analysis of the
water in the gravel pit, as it
is private land. Besides this
they point out, there are no
safeguards in the area - such
as lifeguards and safety pro-
tection.

Mosquitoes

Let us note, for the boys in
the Softball League, that no-
where in Wilmington are the
mosquitoes fiercer, today,
than in the Town Park. They e-
merge from the woods in regu-
lar flight formation, and at-
tack by squadrons.

Pics

We want to thank all our re-
aders who have commented on our
picture of the Avco nose cone
last week. As some of them
suspected, it was not an easy
picture to take - facing kleig
lenses doesn't add to the ease
of a situation, when one holds
a camera in his hand.

The picture was taken at one
five hundredth of a second,
at f 16, using a film with an
ASA rating of 800, for people
who are technically interested.

Delightful Musical

We were very pleased to be
able to attend the Chernoff
musical, in the Herbert C.
Parrows Auditorium, last Sun-
day afternoon. It was very de-
lightful.

Mrs. Chernoff's students made
an able presentation.

The affair had been very
thoughtfully planned, and was
a credit to the entire group.
We noted that Father palmieri
of St. Thomas was one of those
present, a little item perhaps
but it gladdened us to see him.

KEN LYONS JR TO GRADUATE FROM NEW HAMPTON SCHOOL MAY 30TH

Kenneth M. Lyons, Jr., son of
Mr. and Mrs. Kenneth M. Lyons,
Sr., of 94 Andover St., North
Wilmington, will be graduated
at the QEII Commencement of
New Hampton School, New Ham-
pton, N.H., on May 30. Lyons is
a member of the cast for the
commencement play, FILLY RUDD,
and a member of the glee club
which will take part in the
commencement activities. At
the annual spring sports ban-
quet held recently at the sch-
ool Lyons was awarded a junior
varsity track letter and mem-
bers of the glee club received
emblems. He has been an honor
student, a member of the var-
sity soccer team and ski team.
In the fall he plans to enter
Syracuse University.

WILMINGTON WOMEN'S CLUB GARDEN PARTY

The Garden and Conservation
Committee of the Wilmington
Women's Club will hold a gar-
den party and plant sale on
Thursday, June 4, 10:00 a.m.,
at the home of Mrs. Frank
Stevens on Federal Street. In
case of rain, it will be held
the following day. Each member
is asked to bring something
which can be sold such as
house plants, garden plants
(flower & vegetable), vases,
pottery, etc. The Ways and
Means Committee will serve
coffee and home-made muffins -
donation 50 cents. The public
is cordially invited.

FOR RENT

porch, fireplace, well e-
quipped electrical kitchen,
automatic hot water, boat,
beautiful view. References
required. Of. 8-8417.

overpass was built, just recently opened.

Now the DPU has given permission to the
Boston & Maine to similarly cross Route 38, in
a grade crossing, just seven miles north, in
our town of Wilmington.

It would seem that the lesson of Winchester
was entirely lost on the gentlemen of the De-
partment of Public Utilities.

They have condemned the people of Wilmington
to the same fate that Winchester faced for
fifty years. They have condemned the business
people of Wilmington. They have condemned Wil-
mington.

TROOP 108, GIRL SCOUTS, SPENT WEEKEND AT CAMP RUNELS

Troop 108, Senior Girl Scout
Troop of Wilmington spent last
weekend at the Lowell Council
Girl Scout Camp - Camp Runels,
in Pelham New Hampshire.

Honors - Michael Funn, Milton Smith, Mary Torredimare, Patty Jaquith, Janie Iovanna, Beverly Ayotte, Ronald Metcalfe.

Perfect Attendance - Ann Fuller, Ronald Metcalfe, Steven O'Brien, Dennis DeMaggio, Gregory Lane, Joseph Infantino, David DaSilva.

REPUBLICAN FINANCE CAMPAIGN IN PROGRESS

Mrs. Ruth Kitchener, Chairman of the Wilmington Republican Finance Committee has called upon the Republicans of Wilmington for donations for the 1960 campaign.

Each of the Republicans in Wilmington are being asked to mail in \$1, before June 1st.

'Elections, today, are won and lost between the elections Mrs. Kitchener states. 'All of us recognize of course, that it takes more than just money for a political party to succeed. A party must have attractive candidates. It must develop issues, and it must present them properly. A High Degree of Organization is another must.'

The Democrats of 1960 will face the difficult challenge of running against an eight-year Republican record of unparalleled prosperity and progress. Our gross national product, the measure of the Nation's total output of goods and services is running at the record rate of \$465 billions a year - up nearly 9 percent in only one year.

Housing starts during the first quarter of 1959 were at the annual rate of 1,353,000 - a tremendous increase of 42 percent over the 1958 figure.

While unemployment is still a problem in some areas and some industries, the jobless total is still declining. The number of people at work in America is likely to reach a new record high in 1959.

It now seems apparent that when the books are closed for the eight years of the Eisenhower Administration they will show more people have been at work, earning more, producing more, and investing more than any comparable period in the Nation's history.

The most important dividend of all is that Peace has been maintained.

FRENCH CLASS PLAY

The French III Class, in Wilmington High School, in their French Play 'Le Roi et Moi-meme', translated into the French by Warren Layne. L to R Barbara Bishop, Theresa Enos, Nancy Cutter, Pat Kennedy, Judy Condrey, Norman Norton, Marie Peterson and Roseanna Eaton S9

We are proud to have such a record, Mrs. Kitchener said. I believe that whatever smoke-screens the Democrats the Democrats may send up, whatever the diversionary tactics they may employ, this is what the battle will really be about.

We all have a vital stake in our 1960 elections. It is our responsibility, as Republicans to make the issues clear. We can have, she said, a repetition of 1952 and 1956. Send in a dollar, to help get the message on its way, and do it before June 1st.

LADIES BENEVOLENT SOCIETY OF THE CONGREGATIONAL CHURCH
May 28, 1959 at 10 o'clock in the morning the meeting of the Executive Board of the Ladies Benevolent Society of the Congregational Church in Wilmington will be held in the Parish House at the Church. The many plans that are being considered for the work of the Church warrants special attention and full attendance of the board members is anticipated at this meeting.

CONGREGATIONAL L. B. S.

PILGRIMAGE TO BUCKLAND, MASS

Fright and early on the morning of June 3, 1959, a Wednesday morning, the members of the several branches of the Congregational Church in Wilmington under the leadership of Mrs. Gertrude Bennett will meet at the Church for the pilgrimage to Puckland, Mass., for a visit with Mrs. Louise Cummings. The interest in this trip into one of the prettiest parts of our Commonwealth for the purpose of visiting with the Rev. Stanley Cummings and his wife indicates that a goodly number of the members of the L.P.S. will gather at the Church on Wednesday morning June 3rd at 8:30 o'clock. Be sure to bring your own box lunch and be ready for a pleasant trip and happy day with Mr and Mrs Cummings. All interest in this pilgrimage may obtain further information by telephoning to Mrs. Gertrude Bennett.

DE MOULAS AND PSOINOS, WITH GILLIS S7

DE MOULAS HAS SIGN TROUBLE

The De Moulas Brothers, now building the Wilmington Plaza, off Main Street, ran into some sign trouble, last Thursday evening.

A Board of Appeals hearing denied them the right to erect a large sign, as part of the building, but above the main part of their store.

It had previously denied such a right to Lucci's market, for the same reason - the Building By Law does not allow it.

Mike De Moulas and Charles Psinos, the contractor, appeared before the Selectmen Monday night, to discuss the matter.

Building Inspector Minot Anderson explained the fine points of the law. He thought it should be changed.

Danny Gillis, Chairman of the Planning Board, who was also present agreed.

Mr. Gillis will introduce an amendment, into the coming special Town Meeting, so that stores that are well back from the street can erect signs of the type the De Moulas firm seeks to erect.

Meanwhile De Moulas will keep working on the sign - with their fingers crossed.

GRAVEL STILL A SUBJECT OF DISCUSSION

Gravel, in many aspects, was a subject for discussion in the Selectmen's meeting, Monday evening.

Foremost was a report from the Town Manager that Mr. Cardi, of Campanella & Cardi had visited the Town Hall, inspected the Hathaway Pit, and expressed a willingness to talk over the gravel problem with the Selectmen.

The news was greeted with a roar of laughter by the Selectmen. The laughter was uncontrolled for several minutes, after which Selectmen Frank Hagerty and Nick De Felice caused it to break out again.

Hagerty merely said: I believe you.

He brushed away a tear. De Felice asked: Where is the broom?

Calabrese told the Selectmen that Mr. Cardi came after a mutual friend had met the TM (by accident) two days earlier. The mutual friend had remarked about the trouble with gravel, in Wilmington, and, Calabrese told him that it was a case of an out-of-town company trying to walk all over the town. They took us for a small town - they are just trying to walk over us.' was the way the TM reported the conversation.

On Thursday Mr. Cardi came in and the TM talked with him nearly all day. He showed Cardi the Hathaway pit, and reported that Cardi had said 'We have a lot of trouble with that man'.

According to the TM Mr. Cardi said he was not aware of what had been going on - it was at this point that the laughter broke out.

After the meeting had regained some quiet Chairman Don Kidder ventured an opinion that if Mr. Cardi should want to meet with the board it should be willing to sit down and talk.

TM: Make no mistake: He knows now how the town feels!

De Felice: I say give them nothing!

Mrs. Drew: I say listen to them!

De Felice: Until the Governor signed that bill -- would they talk?

Kidder: Shall we set up an appointment?

De Felice: He'll feel much

worse when he leaves. The state registry of motor vehicles made them register those Rhode Island trucks - they had a big pile of plates there today.

No date was set for a meeting with Mr. Cardi.

Phil Parks

The first discussion of the evening on gravel was with Philip Parks, of Pallardvale Street.

Mr Parks had bought one of the houses which had to be moved because of the new highway. He wanted to locate it on land he owns, in the industrial zone. He could do this because of a Board of Appeals decision, but he had to get the Selectmen's permission to move gravel from a hillock which he wanted to remove, for purposes of grade.

The Selectmen carefully examined Mr. Parks' request. Hagerty explained that he did want to get into a Ruggerio deal. Parks resented some of the questions, remarking that there seemed to be two kinds of laws, one for him and one for another fellow.

Hagerty: I know what you're talking about. I'm going to talk about it later this evening.

It was finally agreed that Mr Parks could get a license to remove the excess gravel, for landscaping purposes, if Payer & Mingolla, who are buying the gravel would supply the necessary contour plan, and the ne-

cessary bond were to be supplied.

Mr. Hagerty's Case

Later in the evening Hagerty brought up a discussion of the 'other case'. It turned out that gravel excavations were going on, last week, from the property of the Charles River Breeding Laboratories.

Hagerty was indignant. He moved that the company be taken to court and prosecuted. 'They're carrying on operations without a license, without a permit - take them into court! Nothing but a racket! Just as much of a gravel merchant as Mr. Hathaway!'

De Felice: Yes, and then they will establish a non-conforming use, and Hathaway will move in!

Kidder: They aren't entirely to blame. Kidder explained that a mistake had been made by one person, who interpreted the zoning by law wrongly 'but it has been straightened out now'

Calabrese: Even if it is landscaping it has to go before the Board of Selectmen.

Hagerty: Yes, and the Board of Appeals. They are just trying to make a fast buck!

Mrs. Drew: But I understand they are going to build! This landscaping is in preparation. You don't trust anyone, do you?

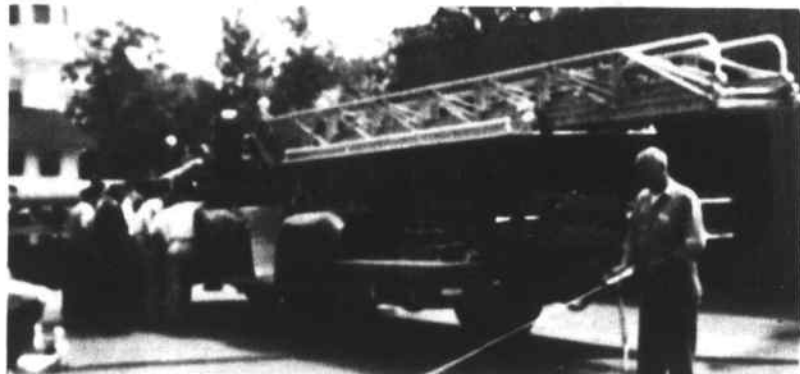

Hagerty: Not when it comes to gravel! The only people who can give permission to move gravel are the Planning Board, the Board of Appeals and the Selectmen!

CAKE SALE

The ladies auxiliary of the Wilmington Hebrew Community Center will hold a cake sale in front of Freddie's Market, South Tewksbury, at 10 am today

BIRTH

CLARK, baby daughter, fourth girl, 10th child, to Mr. and Mrs. Robert Clark, Church St., in Winchester Hospital, May 22nd. Weight 7½ pounds.

B&M IS BALLASTING WILDCAT RAILROAD

The Boston & Maine Railroad, today started placing crushed rock on the track of the 'Wildcat Railroad', preparatory to transferring the present passenger service through No. Wilmington to that track.

The track, at the present time is limited to a speed of 30 mph. The ballasting of the track will allow faster schedules.

No date has been announced as yet for the transfer of traffic. June 14th. is popularly understood to be the day.

Unconfirmed statements have been made that the railroad has purchased a lot of land adjacent to the railroad, at Salem Street, for a parking lot and train stop.

ONE WAY TRAFFIC IDEA FLOPPED

The Town of Wilmington tried its 'one way traffic plan' for two hours, Monday afternoon, and then it was called off, by a disgusted Chief of Police - Paul Lynch.

The plan just didn't work out. Bill Povitz, of 10 Middlesex Avenue, alarmed by all the cars that had passed his home Monday afternoon ('there must have been 3000') called on the Selectmen Monday evening to see if there were other plans. He had a long conversation, in which the Selectmen explained they couldn't make a definite statement until they knew (1) what the railroad was going to do (2) if there would be a bridge over or under Main St. or (3) if other recommendation should come from the State DPW.

The present, and now discarded plan, Povitz was told, was a recommendation by the State.

'We tried it - and it flopped flat on its face' De Felice said.

LETTERS

May 25, 1959

Dear Larz:

I am the guy who is guilty of writing that letter two weeks ago about the Little League. I was very surprised to see that there was only one reply.

Just to keep things clear with the lady who wrote that reply I am not quite the shirker that I made myself out to be. I have been active all my life in activities for boys - Scoutmaster, Troop Committeeman, and that sort of stuff. I was hoping that we could

have a 'farm' team up here in Hathaway Acres, for Little League boys. It seems that the goad I used was insufficient. No one else seems to be interested.

I know that the Little League has a problem. I know we don't have enough playgrounds for our boys. I was hoping that some of our men could see fit to volunteer their services, say one or two days a month for a Little League farm team for our boys.

There are plenty of men, I think, who could do this. They cannot, like others, volunteer certain days every week, but they can, if they wish, and if there are enough of them, keep a farm team going.

And, not only in Hathaway Acres, but in other places in Wilmington, too.

Sincerely,
Ed Rideout

Capt. Larz Neilson

Town Crier
Wilmington, Mass.

Dear Larz:

Mrs Kasabuski is to be commended for speaking up in her letter published last week. She knows where of she speaks.

There are many parents who conscientiously do whatever they can to assist Little League. These remarks are not aimed at them.

However, there is that certain percentage whose only contribution to Little League is the fact that they have a son in the league, and who have no thing to offer but destructive criticism. yet these are the very ones who drag their feet when calls are sent out for volunteers. Now that the games are underway, in spite of difficulties, the griping season is on. These remarks are aimed at those particular parents.

Mrs Kasabuski's mention of grass and storm windows is very apt. She didn't mention that most of these officials eat supper at 9 pm. Where are the critics -- home eating supper? If they ever attend the games, it's with a full stomach, to gripe at how the team is run. As a matter of fact, many just dump the boys and drive off, leaving the managers and coaches to worry about how these boys will get home.

These officials love the game of baseball and love helping the boys. Many of them are active in other types of civic work as well. What would hap-

pen if these men and women who do contribute their time and work decided to chuck it all? Would the critics rush in and fill the gap?

For the further information of the critics, the officials do not just sit around for a couple of hours a week. It may come as a surprise to some, but in addition to the meetings, etc., these men must also paint the fences, work on fund raising, and even take turns cutting the grass at Little League Park. Do the bleachers arise from the ground with the spring flowers? Does the paint jump out of the cans onto the fence? Do the candy wrappers and other litter jump into the refuse can?

These critics heap abuse on the officials, and insist that sonny play in every game. They'll tell all and sundry how the team should be run -- but I wonder if they ever volunteered to coach any team. Things look a lot different on the other side of the dugout.

When asked if they wish to volunteer, these people are highly indignant. They do not

phone to offer their services--they call to tell the manager what to do, 'or else'.

Why don't these men and women do something constructive with their time? Why don't they pitch in and do a job of work? Perhaps if more helped and less talked, conditions would improve beyond criticism. Or is that possible in this so very human world?

Little League has as its function, not only the teaching of the game, but the teaching of character. Sportsmanship in life, as well as on the field. Who is a better model--the official who works and encourages his boys, or the parent who gripes and thereby ruins his own son's morale?

Now that the season is underway, the very least anyone connected with Little League hopes is that these parents show up at the games and cheer their boys on. The men who have worked so hard for the boys want these boys to have the happy feeling that someone cares. They will feel that their efforts have not been in vain.

EVERYTHING FOR THE HOME

SCIENCE, EDUCATION, CHURCH AND HOME
The Pallbearers, at the funeral of Dr. Dudley Buck were representative of his interests in life. Bearing the mortal remains of Dr. Buck from the services in the Methodist Church are: John Collins, Superintendent of Schools, Norman Ely, next door neighbor, Paul Bodenstein, representing the church in which Dr. Buck did so much work, and Charles Crawford, a student at the Massachusetts Institute of Technology. S2

Funeral services for Dr. Dudley A. Buck were held in the Methodist Church, Sunday at 1:30 pm., with the Rev. Dr. Otis Maxfield and the Rev. Richard Harding officiating.

Dr. Maxfield, formerly pastor of the Wilmington Methodist Church, and now the pastor of the Community Congregational Church of Columbus Ohio had come east to participate in the services of his former parishioner.

Dudley Buck, one of the world's most brilliant scientists, died in the Winchester Hospital last Thursday, the victim of a virus pneumonia.

A resident of Wilmington since 1950, he was the inventor of the cryotron, an unbelievably small replacement for the transistor. 100 of them can be placed in a thimble. He was Assistant Professor of Electrical Engineering, at the Massachusetts Institute of Technology.

Mr. Buck was born in San Francisco April 25, 1927 and received his primary education in the public school system of California. He was awarded a Bachelor of Science degree from the University of Washington in 1948, and spent two years in the US Navy as a Communications Officer.

In 1950 he entered the Massachusetts Institute of Technology, buying his home of Birchwood Road at that time. In addition to his studies he became a research assistant, devoting much of his time to special projects in the Lincoln Laboratories.

Lincoln Laboratories announced in 1956 that Dr. Buck had developed a new device known as the cryotron, a small electronic switch operating at low temperatures. The operation is based on the effects of magnetic fields on superconductivity at liquid helium temperatures.

The cryotron is expected to pave the way for the development of much smaller and light

er digital computers, popularly known as 'electronic brains' and used in practically every phase of military operations today.

The cryotron is now being developed in over 40 laboratories in the United States, and a computer, now being developed by the Arthur L. Little Co. of Cambridge is based on this instrument.

Dr. Buck's paper, 'The Cryotron - A superconductive Computer Component' won the Browder J. Thompson Memorial prize of the Institute of Radio Engineers, in 1957.

He received his degree of Doctor of Science in Electrical Engineering in June 1958, and was appointed Assistant Professor of Engineering in the next month, at MIT.

His life in Wilmington was equally fruitful. He organized Troop 56, Wilmington Boy Scouts and his enthusiasm did much for the Scout movement in Wilmington. He was the author of the song 'Camp Forty Acres' He was a Sunday School Teacher, in the Methodist Church, and became a Lay Preacher in that church.

In 1956 he was elected to the

School Committee and was chairman a year ago. His approach to the problem of public education was serious. He initiated a plan of School Committee - Teacher meetings for the purpose of exchanging ideas, defining objectives and encouraging advanced teacher study. His goal was to have Wilmington's schools unsurpassed, as an educational institution, by 1967.

Dr. Buck found opportunity in his life for many other activities. He was on the Commission of Worship and Fine Arts, in the Methodist Church. He was an adult advisor for the Junior High Fellowship of his church. He was prominent in the Lowell Boy Scout Council.

His work for MIT, and for the American Security Council kept Mr. Buck travelling over much of the country. One time, attending a School Committee meeting he remarked 'I can still hear the plane's engines in my ears'. He had left Palo Alto California, that morning.

He is survived by his widow, the former Jacqueline Wray, of North Easton, who he married in 1954, and three children, Carolyn, Douglas and an eight weeks old son, David.

The Nichols Funeral Home was in charge of arrangements. Burial was in North Easton.

CAFETERIA MENUS

Week of June 1

MON: Cheeseburger on buttered roll, buttered peas, tomato wedges, fruit, milk

TUES: Pork chow mein, crispy noodles, buttered rice, corn bread & butter, cookies, milk

WED: Italian spaghetti with meat sauce, green salad, peanut butter sandwich, ice cream milk

THURS: Faked ham loaf with pineapple sauce, mashed potatoes, buttered green beans, bread & butter, cup cakes, milk

FRI: Tuna salad roll, potato chips, buttered whole kernel corn, grapefruit sections, milk

GARDEN FESTIVAL
Out of respect to the late Dr. Dudley Fack, the Methodist Garden Festival has been postponed to June 6th. It will be held on the church grounds from 10 am to 3 pm, with a bicycle parade and doll carriage parade at 10:30 am., the crowning of the May Queen at 11 am., followed by a Tom Thumb wedding.
There will be an auction at 1 pm. There tea room will serve luncheon, and a bean supper is to be served at 6pm.
The Festival is being jointly sponsored by the Women's Society of Christian Service and the Methodist Men's Club.

BILL FROST TO EXHIBIT AT BOSTON ARTS FESTIVAL
William P. Frost, 260 Lowell Street, will be among the seventy New England artisans who will be represented at the 1959 Boston Arts Festival, through June 5 through June 21.
The exhibit will be a part of the New England Crafts Exhibition, to be displayed in the Public Garden. The jury who will make the final selection will be Josiah Paired, Dean of the Massachusetts School of Art; William Brown of the Worcester Craft Center, and Mrs. David G. Stone, ex officio representative for the Arts Festival.

Dr. C. G. Smith S3
RAYTHEON FOUNDER WITH THE MYSTIC TRANSFORMER 'INDIANS'

Dr. Charles G. Smith, one of the three founders of the Raytheon Company, has become an 'Indian' at the Mystic Transformer Company, on West Street.
The Mystic Transformer people - one of the newer industries in Wilmington, is a place where there are no 'chiefs', just 'Indians', according to the enthusiastic employees of the company.
While Dr. Smith has reverted, perhaps - to the lowly status of an 'Indian', he won't be just exactly like the rest of the tribe at the West Street teepee-- for Dr. Smith, instead of winding transformers, and consulting charts, will sit at a desk and doodle.
Dr. Smith wants to find out what there is to be known about mercury, and he wants to find out how to take the salt out of water from the ocean, at a cost that will make it worth while. In other words Dr. Smith wants to engage in his own research, on his own time, and without looking at a time clock.
The 'Indians' are cooperating by letting him have his own private room, desk, and plenty of sharpened pencils. The rest is up to him.
A Texas boy, born on a 1000 acre ranch in 1880, Dr. Smith is a man who has over 150 patents to his name - patents which he started making even while he was a student at Harvard College.
He was a student of Dr. George W. Pierce, in the Croft laboratory, in Harvard, back in the days when the atomic theory was one of the more esoteric subjects.
Dr. Pierce was interested in radio circuits and had made important contributions to the amplifier and control tube field. Working with Dr. Pierce Smith (the Doctorate came later) developed gaseous amplifiers and rectifier tubes, based on the so-called 'short-path' principal.
This was the beginning patent of the American Appliance Company - which three years later took the name of Raytheon.
The company was founded by Dr. Vannevar Bush, Laurence K. Marshall, and Dr. Smith, and its first important product was the new tube, which it started to manufacture in 1925 and of which it sold \$1,000,000 worth in a few years.
The path which led to the invention of this tube started in a star called Zeta Puppis, which is near the constellation Aires, in the Southern Hemisphere.
Spectrum lines, from this star, long ago attracted the attention of Harvard astronomer

E. C. Pickering. An unknown series of lines was attributed to light from the Hydrogen Atom - in a form believed not to exist on this earth. Because the lines were similar to other lines attributed to Hydrogen this was at first accepted, and then questioned. The lines in question became known as the Pickering series, and many scientific minds pondered the phenomenon, but with no results.
Neils Bohr, in Copenhagen, calculated that some of the lines in the Pickering Series could be caused by ionized helium - helium which has lost one of its two electrons. With but one electron revolving around the nucleus it was suggestive in many ways of hydrogen.
The problem went back to Harvard, where Professor Lyman suggested to one of his students (Smith) that it might be worth some research.
The research was expensive, for in those days the only Helium available came from certain radio-active sands in India. The cost of the Helium was \$1500 a cubic foot, but Professor Lyman was able to procure a number of cubic feet of it.
Smith worked on the problem for some time, with no results. One Saturday afternoon he thought of using a circular tube. He dashed over to the laboratory, but the glass-blower (it being Saturday afternoon) was absent.
A Chinese student, named Hoo, (later President of a University in China) was able to 'blow' glass, and at Smith's request made the circular tube for him.
In this ring tube the predictions of Neils Bohr, concerning the Pickering Series were proven to be accurate.
As so often happens, another scientist made the discovery at about the same time, a British student named Anderson. Smith never had his work published as a result.
But, having become interested in ionized Helium he continued his studies, studies which led into the long electronic path of ionized helium, and to the recognition of the ease of purification of this isotope. It was these studies that led to the invention of the 'S' tube, so named by Dr. Vannevar Bush.
The 'S' tube immediately became an integral part of all the early broadcasting stations as a 'rectifier' converting AC power to DC.
It was about this time that Dr. Bush, Marshall and Smith decided to develop their own company, which, as related, was first called the American Appliance Company.
Smith had become interested in refrigerators. He was trying to develop something that he intended to become 'the Ford of refrigerators,' and Marshall visited his home nightly while they worked on the project - until after midnight. They borrowed \$25,000 to start their company.
The refrigerator idea didn't work out, but the radio tube did - and in three years, when they changed the name to Raytheon - the word comes from the Greek, and means 'Rays of the Gods', they were really in the business of making radio tubes.
Dr. Smith continued with Raytheon until last December, when, having reached the age of 70 he retired. His research was his life - as related he has acquired over 150 patents.
Put one or two items, at least, continued to elude him, during the years, and one of these was a full knowledge of electric arcs in a magnetic field, while at the same time he has been intensely curious about the electrical properties of mercury.
Dr. Smith maintains that there is a lot to be learned about this element. Its electrical properties have mystified many men, himself included, and he intends to devote a lot of thought to the subject - while sitting in his office in the teepee on West Street.

LEGAL NOTICE

COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss. Probate Court

To Winford F. Cox of parts unknown.

A libel has been presented by said Court by your wife - Shirley R. Cox praying that a divorce from the bond of matrimony between herself and you be decreed for the cause of cruel and abusive treatment and praying for alimony and for custody of and allowance for minor child.

If you desire to object there to, you or your attorney should file a written appearance in said Court at Cambridge within twenty-one days from the twentieth day of August 1959, the return day of this citation.

Witness John C. Leggat, Esquire, First Judge of said Court, this seventh day of May 1959.

John V. Harvey, Register M14, 21, 28

BETTY JANE MACDONALD WINS CAMPSHIP TO CAMP RUNELS
 Betty Jane MacDonald, daughter of Mr and Mrs William P. MacDonald, 15 King Street, has won a two week 'campship' to Camp Runels, the Lowell Girl Scout Camp at Pelham, New Hampshire. She will spend the first two weeks in August at the camp. The campship was financed by the Girl Scout Cookie Sale, and a donation from the Wilmington Lions Club. A Senior Girl Scout, she is 15 years old, and was chosen on a basis of cooperation, initiative, resourcefulness and ability to get along with others.

SUNDAY LICENSES GET TREATMENT
 One license for a store to remain open on Sunday was revoked by the Board of Selectmen, Monday evening, and an application for another such license was denied. On motion of Selectman Frank Hagerty a Sunday license was denied to Elia's Country Market, in North Wilmington, and the license formerly granted to Lucci's was revoked. Hagerty told the other mem-

bers of the Board that he felt that all the Supermarket type of stores should be closed on Sunday. A license was granted to the store of John C. Elia, at the corner of West Street, it being felt that this was not of the 'supermarket' variety. After denying a license to the North Wilmington Elia store the Selectmen read up on the law to find out if he could sell anything at all on Sunday. It was found that he could sell newspapers and tobacco, bread (before 10 am and between 4 and 6:30 pm) and milk.

NICK DE FELICE THINKS IT WAS MISTAKE TO BUY LADDER TRUCK
 After viewing a demonstration of the new \$38,000 ladder truck, in Middleton, Monday afternoon Selectman Nicholas De Felice declared it was a mistake, on the part of the Town of Wilmington to buy it. De Felice said that the town would have been better off to buy two 'pumpers' for the same money. The ladders, De Felice declared, will have very little use, and are so constructed that they will not be able to be used on many occasions. 'We were sold a bill of goods' he declared.

MEN'S SOFTBALL LEAGUE
 Two new teams are in the Soft Ball league, this year, one from the Congregational Church captained by Fob Smith, and the other from the Wilmington Ford, Eddie Brittingham, Manager. The Congo team and the Poly team are co-owners of the cellar, as of this writing. Both have lost two games, and so far have yet to sight a 'win' on the horizon.

On the top of the list are the Merrimacs and Ford. Both teams have two scalps in their belt, and both are unscalped, themselves. Cagey old Sam Ethier's defending Townies lost, as usual to the Merrimacs. Sam can get his men on the job, in league competition against the Merrimacs. Every time the Merrimacs and the Townies play, in regular league play, the Townies come out of the suds with the bar of soap in their collective mouth, put there by Fob Faker, Merrimac Manager. The Townies revenge always comes in the Playoff, when that bar of soap is administered to Faker by Dr. Sam. So when the Merrimacs beat the Townies in League Play it is news - and that's what happened this past week. It was a 15 to 14 tussel, marked by good hitting. It wasn't that any hitter was outstanding - it just was that everybody was good, and the final score, of course, left Fob Faker jubilant. Only in the second week of such a series could we have such a number of ties, in league standing - with two teams tied for top honors, two occupying the cellar, and four teams tied for second place, (either from the top or from the bottom - take your pick) The Stingers, Oakies, Legion and the Townies have all won one game, and lost one game, so far. Next week it will be a different matter. Fob Faker is looking for a new bar of soap

Standings

	Won	Lost	Pts
Merrimacs	2	0	4
Ford	2	0	4
Townies	1	1	2
Stingers	1	1	2
Oakies	1	1	2
Legion	1	1	2
Conquerors	0	2	0
Polychemical	0	2	0

WHO OWNS THE WHOLE HOLE
 The Board of Selectmen, a week ago caused a Constable to serve papers on Joseph Cuoco, owner of record of an excavated cellar hole, off Adams St. He will now have to fill up the cellar hole, according to the notice, or have it properly fenced in. Put Mr. Cuoco declares to have sold the land a long time ago, to a Mr. Haskell, and that the new owner should be held responsible. Cuoco has been told that no matter who actually owns the land, until the deed is filed he is the owner of record, and he will be held responsible.

15,000 MPH SHOCK TUBE BEING MOVED TO WILMINGTON
 The famed 100 foot shock tube at the AVCO Everett laboratories is being moved to Wilmington. Capable of producing wind speeds of 15,000 miles an hour the tube, developed by Dr. Arthur Kantrowicz, played a large part in the research leading to the development of the AVCO nose cone. Part of the tube is already at the Lowell Street plant, and the rest is expected to be moved shortly. Crew Chief of the instrument is Raymond P. Gardiner, of Salem Street, North Wilmington.

CONGREGATIONAL CHURCH CABINET WILL MEET JUNE 4TH
 On June 4, 1959 the regular meeting of the Congregational Church Cabinet will be held in the Parish House of the Church. This meeting will give particular attention to the proposed activities of the Congregational Christian interest in higher education around the world which concentrates in some 28 church related colleges, 11 seminaries and approximately 200 campus ministries in the United States, and in 50 institutions sponsored by the American Board of Commissioners for Foreign Missions in 14 countries overseas. On this particular occasion Mrs Dwight Dwinell of the Reading Congregational Church will talk to our people on matters pertaining to the plans for what is needed and what should be done to help aid and assist in such important work. All representatives and members of the various groups identified in our Church work are invited to be present on this date of June 4 to help the Congregational Church in Wilmington to take its proper position in this work that is before us.
